# Charming NEW Garden Mums

Garden Mums have become a universal favorite for the garden since the introduction of the earlier blooming varieties. Among the most dependable flowers in the autumn garden, providing a riot of color from August until heavy frosts set in.

Choose ourselves in keeping only the better varieties and in adding the newer introductions only after giving them a trial in our gardens. In that way we can assure our customers of having only the best Mums.

All our plants are grown in 2 1/4-inch pots and are guaranteed to be healthy, disease-free, and true to name. All will bloom this year. All prices quoted in this list include transportation to your door. Shipments can be made from March 1 to the middle of June. Usually all orders will be shipped at the proper planting time for your locality, which is Tomato planting time or when you set out tender plants.

	Blooming Date	Height in Inches	Price per 3	Each
<b>AUTUMN GREETINGS</b> , Semi-double, an unusual color of orange and reddish copper. Truly a fall color. Plant habit robust and healthy. Flower in clusters about 1 1/2 inches across.....	Sept. 11	24	\$1.15	\$0.45

<b>AUTUMNSONG</b> , Everyones favorite. Color a brilliant wine-rose shading to carmine. Large full double flowers that are perfectly formed. No other variety equals this one.....	Sept. 8	20	1.25	.50
--	---------	----	------	-----

<b>AUTUMN SUNLIGHT</b> , One of the earliest double yellow to bloom. Color a bright yellow with flowers loosely formed.....	Sept. 1	24	1.00	.40
---	---------	----	------	-----

<b>AUTUMNTIDE</b> , Large double flower of burnt orange changing to vermilion. Flowers large and somewhat spoon shaped. One of the early varieties.....	Sept. 3	18	1.00	.40
---	---------	----	------	-----

<b>AVALANCHE</b> , This is the queen of all white Mums. Large fully double white flowers that are 4 inches across produced on long stems that make it good for cutting. This variety should be grown in every Mum garden.....	Sept. 3	24	1.15	.45
---	---------	----	------	-----

<b>AVIATOR</b> , Double medium-sized flowers of rich coppery red. A very easy variety to grow. Long stems make it good for cutting.....	Oct. 2	24	1.15	.45
---	--------	----	------	-----

# NOW YOU CAN HAVE SWEET CORN ALL SUMMER LONG

*By Planting These Super-Hybrid Seeds*

Big ears with giant size kernels so tender, sweet, and milky take the place of all other kinds of sweet corn. It is so much better eating that there is no comparison. Recently a nation-wide jury of garden experts selected some of these varieties as America's outstanding Sweet Corn.

And how it grows! Plants are strong, sturdy, uniform with a rich green color. Ears are borne on the stalk at a uniform height, making it easy picking, nice appearing. And, importantly, it yields more. Ears are bigger and you get more of them.

But wait 'till the day you bring 'em in and serve 'em!

Those great big ears with their giant, baby tender kernels are a joy to behold. And so sugary-sweet, so full of real corn goodness that you can't get quite enough! The kernels are deep, on an unbelievably small cob. But that's not all. The really grand part is that you have this sweet corn coming on all summer long! You see, with this corn the ripening date is "set." The earliest hybrid ripens 59 days after planting, the latest takes 83 days. Simply plant several different maturing hybrids at one time, and pick the world's finest sweet corn from your own garden throughout the entire summer. You'll be the first and the last to enjoy sweet corn on your dinner table.

## ALPHAGOLD BANTAM (Ripens in 59 days)

If you want to lead your neighborhood with the earliest sweet corn, plant Alphagold Bantam. The rapid growth of this first, early yellow hybrid will amaze you. And it's safe to plant it a full week ahead of ordinary sweet corn. Yields well, ears are about 7 inches long, and tips are well filled. Be the first to invite your friends in for a real hybrid sweet corn treat.

## HYBRID GOLDEN HUMMER (Ripens in 68 days)

Be among the first to have yellow sweet corn, by planting Hybrid Golden Hummer. It has large, attractive ears about 8 inches long, and with 12 even rows of tender, sweet kernels. It has high yield, uniform plant growth and is easy to care for. Very similar to Tendergold in growing and eating characteristics—but much earlier! Try some.

## TENDERGOLD (Ripens in 79 days)

There are only three words to actually describe this corn—sweet, tender, succulent. It is an early corn—ripens about four days ahead of golden bantam—and yields about twice as much. It has attractive ears about eight inches long, with deep, sweet kernels. Often gets premium prices on the market! Stays sweet and tender two or three days longer than most kinds.

## TOP-FLIGHT (Ripens in 82 days)

And "Top-flight" it is. A nation-wide jury of garden experts selected this variety as one of America's outstanding sweet corn hybrids. An extremely prolific grower, many plants produce two ears. And what ears! They're 8 to 9 inches long, with from 14 to 16 rows of the sweetest, most tender sweet corn you ever ate! What's more,

it can be grown successfully almost anywhere. Folks from Virginia to Oregon and from Arkansas to Minnesota say it produces unusually clean, quality, dependable crops. Every grower of sweet corn should plant some of this kind.

## TENDERMOST (Ripens in 83 days)

Of all the hybrids that have been developed, this is the most tender. You'll love its giant-size kernels with their sugary-sweet corn goodness, and delightfully tender hull. And talk about big ears! They average about nine inches in length, and almost every ear has from 14 to 16 rows of amazingly regular kernels. This corn stays sweet and tender on the stalk for nearly two weeks at a time. Has good resistance to smut. It's easy growing, high-yielding—and the best of eating.

**Prices on Sweet Corn. 20c per Package**

## SPECIAL All Summer Corn Collection

**1 Package of Each of the Five Sweet Corns for  
85c postpaid**

Now you can plant all your corn at one time instead of making successive plantings. Yes sir, plant them all at the same time and then forget about planting for another year.

# WALLIE'S GARDENS

Box 561

ROCHESTER, MINNESOTA

It is our policy to send out well established plants that are grown in 2¼ inch pots that are guaranteed to give you abundant bloom this fall. Our prices are such that they can be compared with other nurseries and a saving of up to 25 per cent will be noted. Our better grown plants are superior to any plants offered by any other nursery today. Why pay more for the same plants. Send your order today and have more plants for your money.

All plants are guaranteed to be true to name and good healthy strong plants. We aim to please our customers and if you aren't satisfied, return the plants to us and we will refund your money. All claims must be made within five days upon receipt of plants.

Our policy is never to substitute unless it is satisfactory to our customers. To save delay and disappointment will you kindly state whether we may substitute equal or better values in the same color if necessary.

Oswego, N. Y.

My plants arrived today in good condition. Thank you very much for the quick service.

Mrs. W. C. S.

Hinsdale, Ill.

Received the Mums from you in excellent shape. Never had anything shipped to us that arrived in such a fresh manner. Your method of packing is very good. The plants came to us on Wednesday, June 2, 1948. We certainly are well pleased.

Mrs. W. A. S.

Dobbs Ferry, N. Y.

Thank you for your prompt shipment of Chrysanthemums. The order arrived in perfect condition, not the slightest show of wilt. You packed them excellently and what healthy stocky plants. I am more than satisfied with them.

Mrs. J. E. K.

West Trenton, N. J.

Received Mum plants this A.M. in fine condition. Thank you.

Mobridge, S. Dak.

The Mum plants arrived May 13th. They were in very fine condition and were the finest plants I have ever received from any nursery. We are indeed very pleased with them and will most certainly advise our friends to place their orders with you.
